Bernina Express

From glaciers to palms

High up to the glacial glitter of the mountains, deep down to the palm tree paradise of Italy: the Bernina Express, the highest railway line across the Alps, connects northern Europe with the south. And it does so in a brilliant way: the railway line blends in perfectly with the grandiose mountain landscape. Here, the enjoyment of nature and cultural experience become one, here it becomes the most beautiful experience in the Alps! The line between Thusis and Tirano has been listed as a UNESCO World Heritage site since 2008. Over 122 kilometres through 55 tunnels and over 196 bridges: the route of the Bernina Express is an engineering masterpiece.

Albula and Bernina line

From Thusis, the RhB climbs through helical tunnels and over viaducts up the Albula Valley towards St. Moritz. This line, embedded harmoniously in the landscape, is a showpiece dating back to the time of railway pioneering and is part of the RhB UNESCO World Heritage.

The Bernina line between St. Moritz, Valposchiavo and Tirano connects the north and south of Europe. It travels past mountains, beside lakes and glaciers on its way down to the palm trees in Valtellina. The famous panoramic route belongs to the RhB UNESCO World Heritage – a brand name.

Highlights

The Morteratsch glacier

The view of the Morteratsch glacier and the world-famous Montebello bend show, in an exemplary fashion, that the railway pioneers considered the tourists' view when planning the route.

Bernina Diavolezza

The Diavolezza package deal on the Bernina Express spirits travellers away and up to the heights of the Diavolezza mountain station – at 2,978 m above sea level – with its beautiful views across the legendary glacier world of the Bernina massif.

Ospizio Bernina / Lago Bianco

The roof of the Rhaetian Railway lies at 2,253 meters above sea level. The adjoining Lago Bianco enchants travellers with its unique colouring.

Ospizio Bernina

Valposchiavo / Lago di Poschiavo

The southern Alpine valley invites you to hike, stroll and enjoy regional specialities. The view of Lago di Poschiavo in Le Prese is also worth seeing.

The Brusio circular viaduct

The circular viaduct in Brusio is considered the most spectacular structure on the Bernina Line. The viaduct winds elegantly around 360 degrees, to compensate for the difference in elevation in the narrow Valposchiavo.

Italianità in Tirano

The Italian town of Tirano is the southern starting point of the Bernina line. The pilgrims' church of Madonna di Tirano dominates the quaint old-town. Palazzi and gelati induce that Italian feeling.

Solis Viaduct

Albula line

Highlights

Albula railway museum

Showing 600 exhibits from more than 100 years of railway history, which bear witness to the pioneering achievements in Graubünden; of the people who shaped the railway – and the landscapes that shaped the people.

Nostalgic dining car "Gourmino"

Pamper your senses in the Gourmino dining car: for your eyes is the impressive landscapes outside, inside, for your taste buds, our chefs prepare the freshly-cooked meals.

A railway engineering masterpiece

The 62-kilometre long Albula line opened in 1903. It is regarded as a masterpiece of technical construction and route planning, especially because the geography and the railway merge into a homogenous landscape.

For toboggan fans: Preda / Darlux – Bergün

First take a train up to Preda in the direction of Bergün to start the fun on a toboggan. The more courageous ride up with the chairlift to Darlux and toboggan down the steep slope to Bergün.

The world famous Landwasser Viaduct

It is the largest and most spectacular construction on the 62-kilometer Albula line between Thusis and St. Moritz: the Landwasser viaduct intrigues experts and laymen alike.

The Solis Viaduct

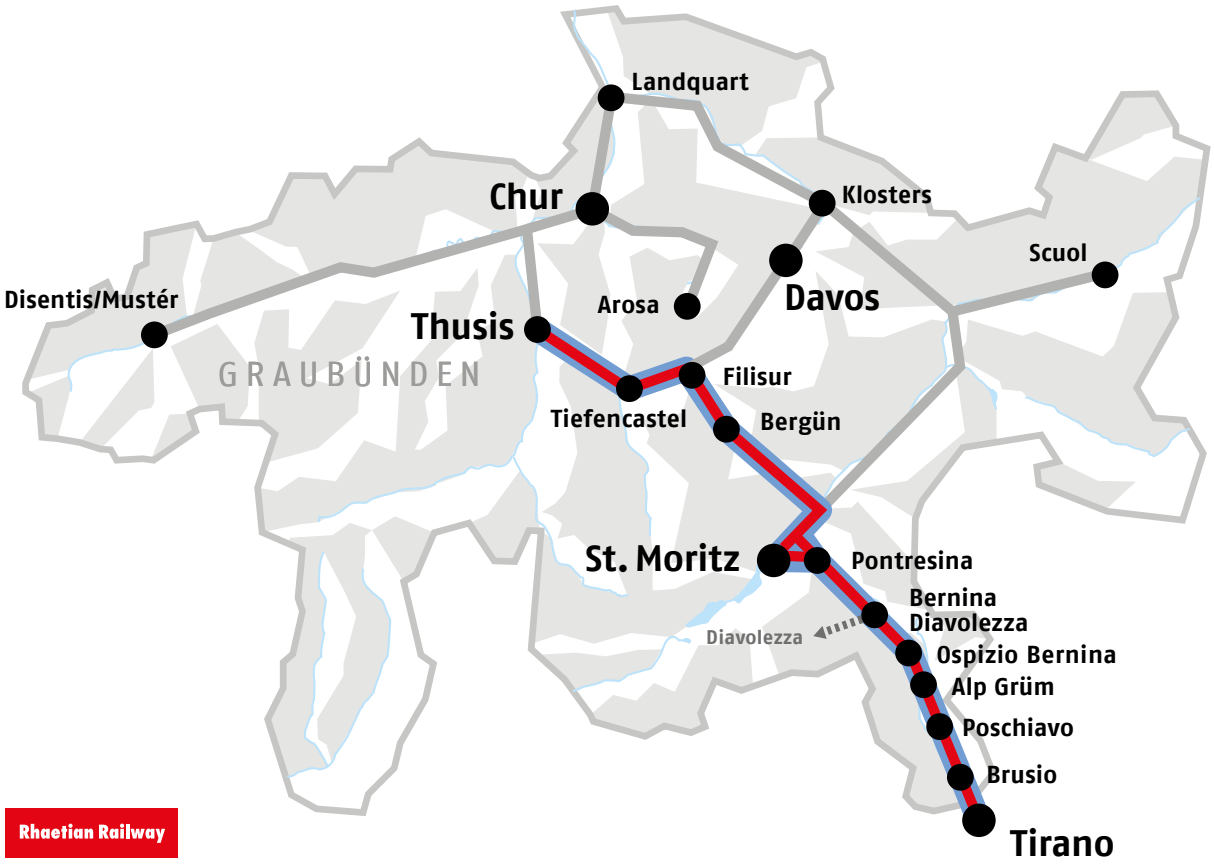

At a height of 85 meters it is the highest viaduct on the Albula Line. The Solis Viaduct bridges the Schin Gorge and is also part of the UNESCO World Heritage.

UNESCO World Heritage Rhaetian Railway

A masterpiece of railway engineering

Since 2008, the "Rhaetian Railway in the Albula/Bernina Landscape" has been a UNESCO World Heritage Site. The 122-kilometre-long line from Thusis (CH) to Tirano (IT), is considered to be a masterpiece of innovative construction technology and routing. A total of 196 bridges and 55 tunnels and galleries are crossed on the railway lines opened in 1903 (Albula) and 1910 (Bernina). Today these two lines appear to be a single coherent transalpine railway line; this was formative for the long-term development of human society in the mountains and is considered a model for the construction of other mountain railways.

Open scenic carriages

Reaching out to touch the sky

All the carriages of the Rhaetian Railway provide a heavenly travel experience. But it's twice as much fun in the open scenic carriages: wind in your hair, fresh mountain air and pure enjoyment are all included in the open-topped trip over viaducts and through tunnels. The open-air carriages have neither glazing nor heating. But they give you the feeling that you could reach out and touch the landscape of Graubünden, unless you are turning your rounds in the helical tunnels.

rhb.ch/open-scenic-carriages

Open scenic carriages are in use on the following routes:

Davos – Filisur
Usually daily from 6 May to 24 October 2027 with Crocodile-locomotive and nostalgic wooden and open scenic carriages.

Gornergrat

The Matterhorn railway

Best view to the Matterhorn
Visitors wishing to get to know the nicer side of the Alps will soon appreciate what makes Gornergrat special: it has no road access. With its sunny observation platform open all the year round, Gornergrat is a top excursion destination – and not just because of its high altitude. Surrounded by no fewer than twenty-nine Viertausender (mountains of at least four thousand metres in height), including the tallest peak in Switzerland and the second-longest glacier in the Alps, this location offers spectacular panoramic views like no other, plus convenient access to the Matterhorn Mountain Railway. This line, which is Europe's highest-altitude, open-air rack railway, departs from the famous spa town of Zermatt in Switzerland's Wallis region, from where it makes the 9,339-metre-long trip to Gornergrat. The ride takes you over impressive bridges and through deep cuttings and tunnels, and offers views of idyllic forests and Alpine meadows, interspersed with rocky gorges and mountain lakes. The majestic presence of the mighty Matterhorn looms in the background throughout the journey.

The new and exciting Zooom experience on the Gornergrat:
Float with a virtual hang-glider over the high alpine landscape, experience the powers of nature and the four seasons on the Matterhorn. Or even look through a digital telescope and bring the real Matterhorn right into focus. The new experience world offers all this and more. Guests will have their admission to it included in their Gornergrat train tickets. Other visitors can buy an admission ticket on the spot for CHF 12.00 (children up to 16 CHF 9.00).

Gornergrat (3,089 m a.s.l.)

General terms and conditions of carriage

applying to express trains, special trains, special carriages, special offers and travel packages

These general terms and conditions of carriage (hereinafter "the terms and conditions") regulate the contractual relationship between users of the Rhaetian railway company Rhätische Bahn AG (hereinafter "RhB") for travel arrangements or services supplied by RhB in its own name or via a third party or parties. Passengers can be either private individuals or legal entities, in the form of tour operators, which book travel on RhB or act as intermediaries on their own behalf or that of third parties. These terms and conditions have been drawn up in several languages, but only the German-language version shall be binding.
In the case of services for which RhB acts as an intermediary, the terms and conditions of the organisation actually supplying the services shall apply, and the passenger shall have a direct contractual relationship with the organisation concerned. This condition applies in particular to, but shall not be limited to, all services that are paid for an a walk-on basis, including those where RhB offers a discount on the normal price or fare.

1. Legal effect
The contract between the passenger and RhB comes into effect with its acceptance, without reservation, by RhB. In the case of telephone bookings, the contract comes into effect with its oral confirmation on the part of RhB. Services booked over the internet are confirmed with the corresponding payment. All additional individual instructions and conditions that might apply likewise form part of the contract, and come automatically into effect for the travel booked. These additional individual instructions and conditions take precendence over the existing terms and conditions. Special requests and additional agreements only apply if they have been expressly confirmed, in writing and without reservation, by RhB.

2. Group travel
The person reserving travel shall be responsible for the payment of all services booked, for ensuring that all accompanying passengers fulfilll the applicable conditions of carriage as detailed in these terms and conditions, and for ensuring that they follow all and any special instructions thaht might be issued by RhB or other suppliers of services.

3. Minimum numbers
Journeys advertised as "RhB travel experiences" (steam-driven snowplough rides, trains drawn by steam locomotive. etc.) are subject to there being a minimum number of passengers. If there is not a sufficient number of passengers, RhB reserves the right, up to 14 days before the date of travel and without being liable for loss or damage, to cancel or amend the programme of travel. The passenger is then free to accept the new itinerary or withdraw (at no cost) from the contract.

4. Travel to point of departure
IIf the package does not include travel to the point of departure, passangers are responsible for ensuring that they arrive promptly. No refunds can be made in the event of lateness caused by traffic conditions, blocked roads, delays by private or bublic transport, delayed arrival, weather conditions etc.

5. Fares and prices – conditions of payment
The services supplied on express trains, special trains, special carriages and as part of special offers or travel packages are as shown in the corresponding brochuers and on tickets. Services are normally payable in advance by invoice, credit card or in cash. Other means of payment are possible only subjected to special agreement. The person reserving travel shall be responsible for the payment of all services booked. All fares and prices include value added tax (VAT). If the terms of payment are not observed, RhB may refuse to supply the services booked, withdraw from the contract and/or charge for the costs of cancellation.

5.1 Costs of cancellation
The passenger must inform RhB immediately of any amendments to the travel itinerary and/or the number of participants as well as the cancellation of the trip. If definatelyy-booked services are not partially or fully cancelled in good time (defined for the purpose of calculating cancellation costs by the date of receipt on the premises of RhB), the cancellation costs detailed below will be charged. The date of cancellation and/or change shall be defined as the date of receipt of written notification on the premises of RhB (or the following wortking day, in the case of arrival on a Saturday, Sunday or public holiday).

Decisive in calculating the cancellation fees is the travel date.

5.2 Changes to offers and prices

RhB expressly reserves the right to amend the offers and passenger fares published in its brochures, leaflets and flyers, and via electronic media. Passengers will be informed of these changes whenever they make a booking.

5.2.1 Changes after booking and before the date of travel

RhB shall be entitled to change the itinerary in the event of force majeure, unforeseen circumstances, or situations beyond its control. The additional costs resulting are to be met by passenger(s) concerned, unless the change is attributable to negligence on the part of RhB. In the case of packages subject to the Swiss federal law covering travel packages (PRG), the stipulations of article 12 ff shall apply.

5.2.2 Changes made during travel

RhB shall be entitled to change the itinerary in the event of force majeure, unforeseen circumstances, or situations beyond its control. The additional costs resulting are to be met by passenger(s) concerned, unless the change is attributable to negligence on the part of RhB. In the case of packages subject to the Swiss federal law covering travel packages (PRG), the stipulations of article 12 ff shall apply.

5.2.3 Cancellation or interruption to travel on the part of RhB

RhB shall be entitled to cancel or interrupt travel without compensation if behaviour or actions on the part of passengers provide legal grounds to make such a measure necessary. The right to charge the above–mentioned administration or cancellation fees remains unaffected. No refund will be payable for parts of the package not yet supplied in the event of cancellation. RhB shall be entitled in particular to cancel or interrupt travel in the event of unforeseen circumstances or situations beyond its control breaker, force majeure (environmental factors, natural disaster, etc.), official measures, strikes, etc. which hinder, endanger or prevent travel. If travel is cancelled by RhB before it begins, RhB shall refund all payments already made, to the exclusion of all and any further claims on the part of the passenger or passengers. If travel is interrupted, a refund will be made for all services not yet supplied, other than services charged to RhB by outside service suppliers. The right is expressly reserved to charge for additional costs arising from interruption of travel. Travel packages are subject to article 13.

6. Claims / complaints
If travel does not conform to the contractual arrangements, or if a passenger suffers loss, damage or injury of any kind, the nearest member of RhB staff should be notifed immediately and assistance requested. The passenger should obtain corresponding written confirmation from the member of RhB staff concerned. This is vital for the subsequent processing of any official complaint. Local members of staff are not authorised to adopt any position on behalf of RhB regarding claims or complaints. All claims for partial refund and/or loss or damage, etc. must be made in writing within 14 days in accordance with the contractual travelor package, accompanied by the corresponding written confrimation made by the local member of RhB staff and any other applicable evidence, and submitted to the Rhaetian Railway at the following address: Rhätische Bahn AG, Bahnhofstrasse 25, 7002 Chur, Switzerland. If the loss or damage is not confirmed in writing by a local member of RhB staff, or submitted to RhB within 14 days of the end of the journey concerned, the passenger shall lose all further right of redress.

7. Travel documentation
Passangers are responsible for ensuring their own correct observance of passport and visa regulations. This applies in particular to travel outside Switzerland (e.g. to Tirano or Landeck). The conditions covering cancellation costs shall apply if the required travel documentation (passport, visa, etc.) is delayed or not issued and travel must be cancelled or delayes as a result.

8. Insurance coverage
Travel packages do not include insurance coverage. Passengers are recommended to take out baggage, accident and cancellation insurance.

9. Liability

9.1 General conditions applying to all RhB packages
RhB undertakes to organise travel in accordance with the agreed itinerary and/or timetable. Even with careful organisation of travel arrangements however, absolute adherence to timetables cannot be guaranteed. RhB shall therefore not be liable for delayed or cancelled trains or similar indicents. Passengers are responsible for the correct safekeeping of valuables such as photographic equipment and video cameras, credit cards, cash and eletronic communications devices (mobile phones, PDAs, etc.) and RhB shall not be liable for any damage to or loss, theft or misuse of such items. RhB shall not be liable for failure to fulfill contractual arrangements or for loss or damage arising from any of the following circumstances:

- Unforeseen arising or unavoidable omissions by third parties not concerned with the delivery of the contractual services.
- Force majeure or circumstances unforeseen by or beyond the control of RhB or its service providers–

The transport organisations concerned shall be directly liable to the legal extent specified.
If RhB is liable for loss or damage arising from contractual negligence on the part of one of its service providers, the agrieved party shall transfer to RhB its right to claim against this organisation.

9.2 Additional stipulations applying to all arrangements not covered by the Swiss federal law covering travel packages (PRG)
The RhB shall be liable for its own gross negligence. No liability shall be accepted for own minor negligence or that of the service providers concerned.

9.3 Additional stipulations applying to arrangements covered by the Swiss federal lax covering travel packages (PRG).
RhB shall be liable in accordance with the stipulations of the Swiss federal law covering travel packages (PRG). If the services supplied by RhB are subject to international agreements or national laws of any kind which further limit or exclude liability, RhB shall be liable to the corresponding extent of such agreements and laws. Liability for other loss, damage or personal injury shall be subjected to twice the package price per person, unless attributable to willful intent or gross negligence.
This does not affect further limitations or exclusions that might apply in accordance with international agreements and national laws.
Non-contractual liability shall be subjected to the applicable legislation with the liability of RhB limited to its own gross negligence. Liability for the intervention of outside services providers is hereby excluded.

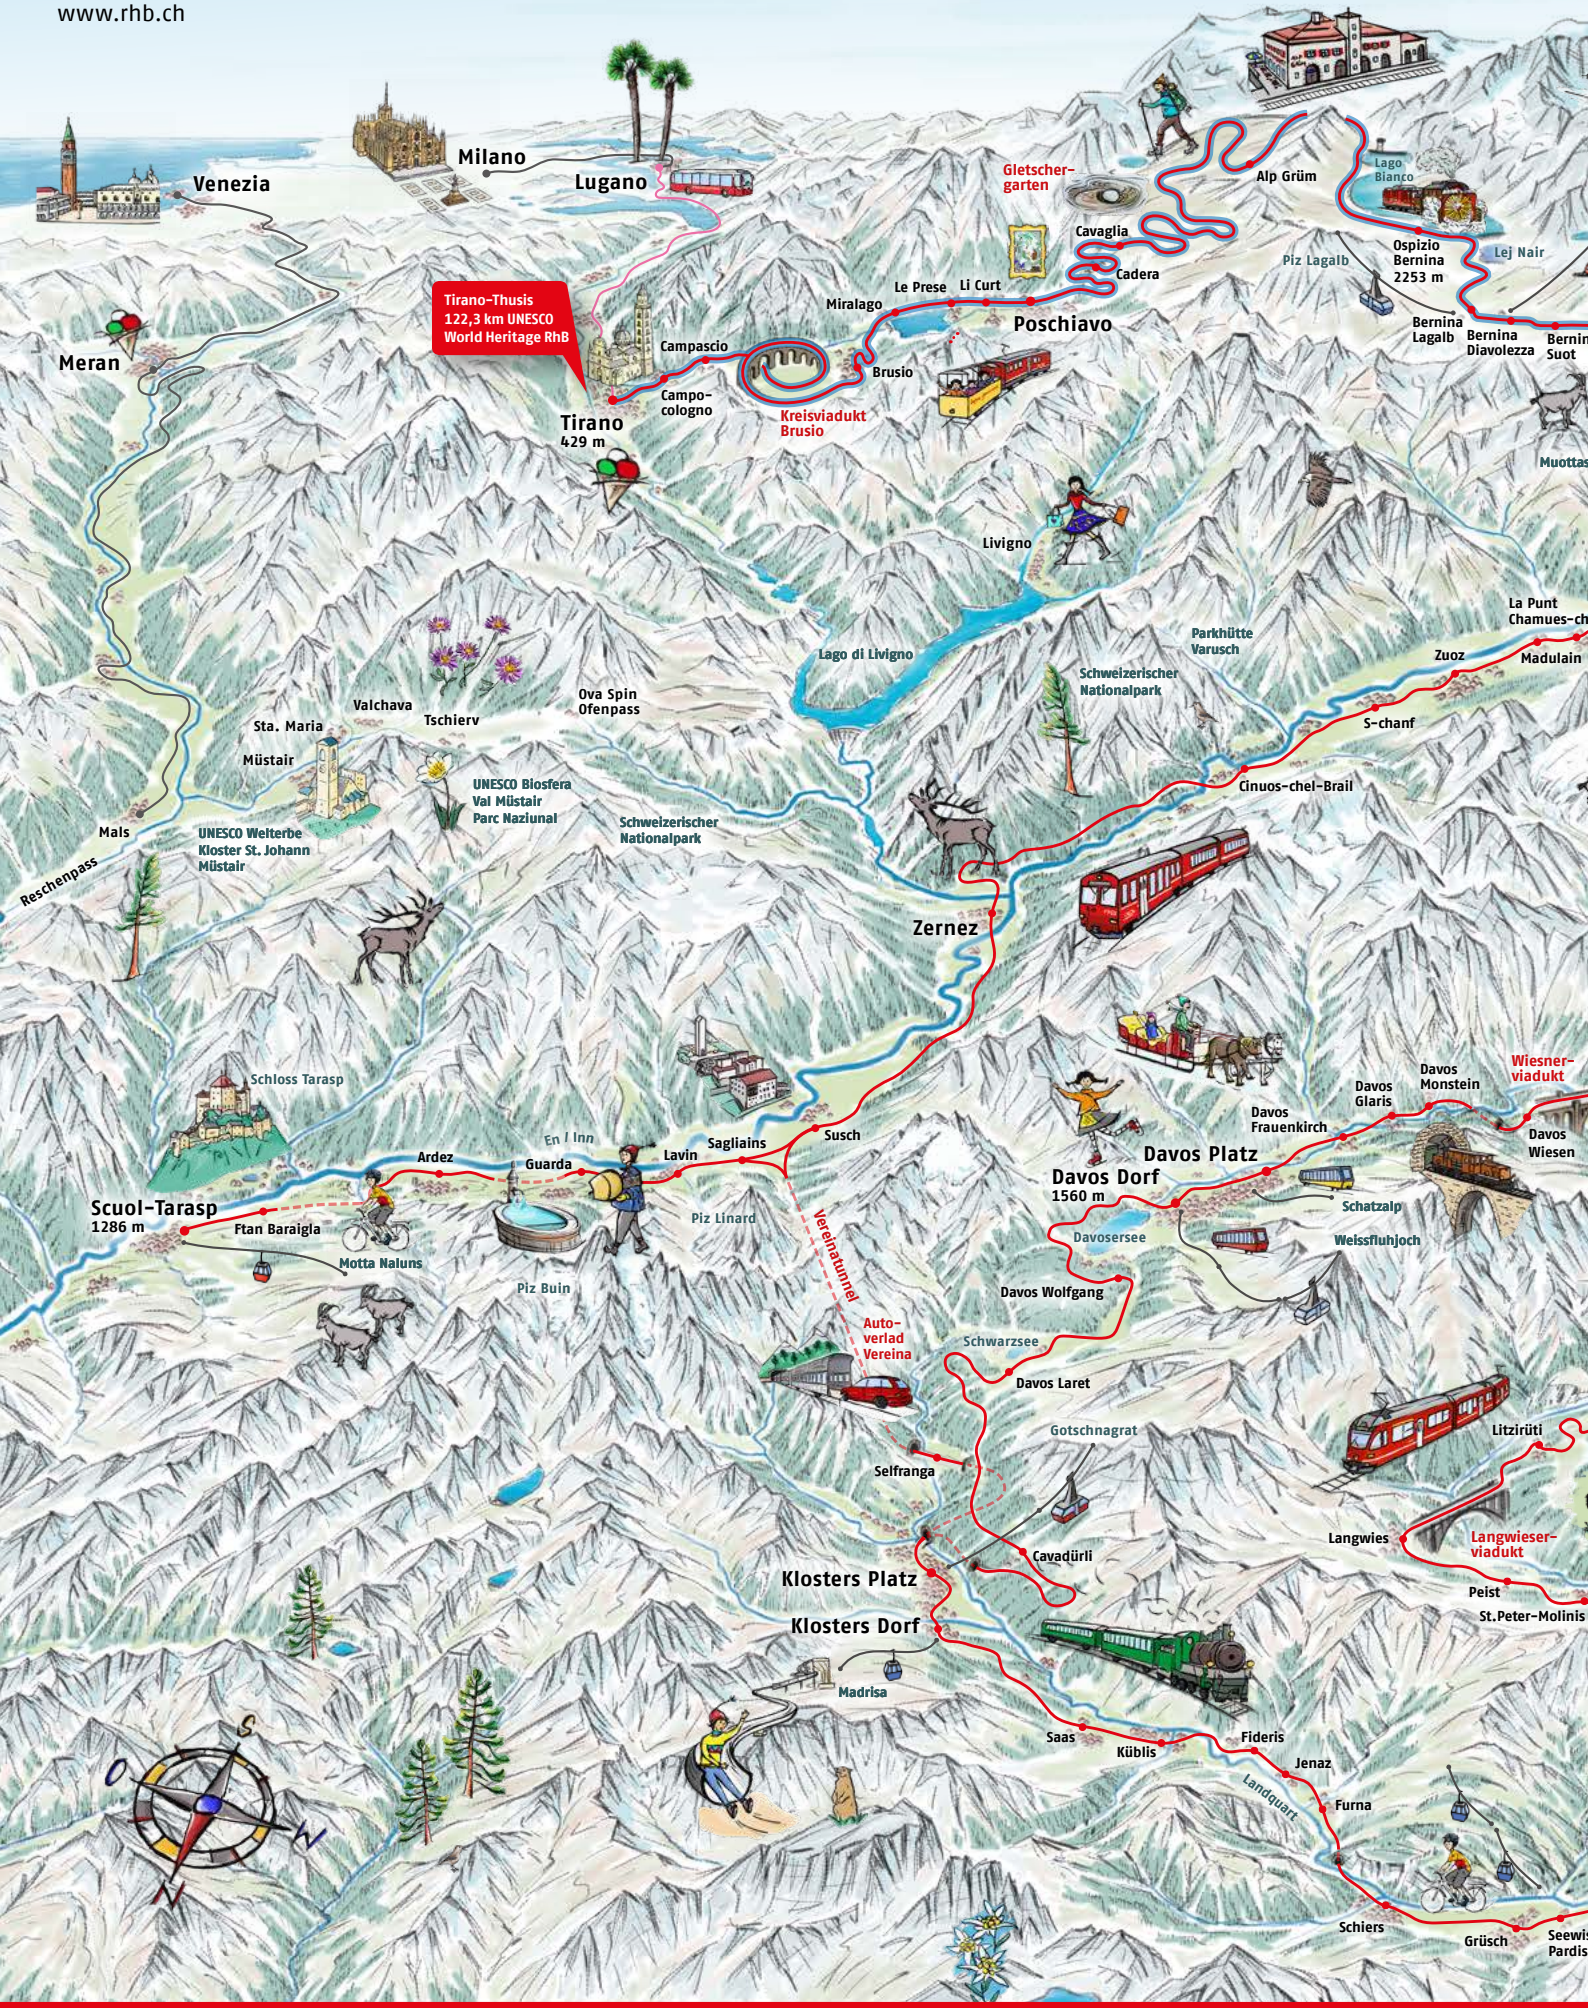

10. Legal jurisdiction
Exclusive legal jurisdiction corresponds to the town of Chur in Switzerland. The contractual relationship between the passenger and RhB is subject exclusively to the laws of Switzerland.
