Stopping concept for coaches in Filisur

With the opening of Landwasserwelt, increased coach traffic in Filisur will be unavoidable. In order to ensure an orderly arrival and efficient traffic flow, a **stopping authorisation requirement** will be introduced. This concept regulates access, stopping facilities and parking as well as the general requirements for coaches.

1. How to obtain a stopping permit

From the start of Landwasserwelt, access to the stopping places in Filisur is only permitted with a prebooked stopping permit.

Booking the stopping permit

Stopping permits can be booked online from three months before the arrival date via the Bergün Filisur tourist organisation.

Information required when booking

- Exact date of arrival
- Stopping point for alighting (Filisur railway station or alternative temporary stopping point)
- Licence plate number of the coach (must be stated correctly for on-site inspection)

After successful booking, the coach operator receives an email with a voucher and a QR code, which is used for validation when accessing the stopping place.

Example: 25.05.15.10.01

Voucher	Year	Month	Day	Hour	Slot no.
Company A	2025	05	15	10	01

Costs of the stopping authorisation

- Tariff (CHF 10.00 per coach)
- Authorised for single entry or exit only
- No parking facilities

The income from the parking fees is used for the maintenance and organisation of the parking infrastructure and for traffic management measures.

Validity

- The stopping authorisation is only valid for the booked day and the booked coach.
- Multiple journeys on the same day require separate bookings.
- The stopping authorisation is not transferable.

Proof and control

- Voucher with QR code: After booking, coach operators receive a digital voucher. This must be presented to the driver (digital or printed).

Stopping concept for coaches in Filisur

2. Travelling without a valid stopping permit

Anyone arriving without a valid stopping authorisation may be fined on site. Subsequent booking directly on site is not possible.

Alternative options for coaches without a stopping permit

Coaches without a booked permit can:

- Use an alternative stopping or turning area outside the town centre (e.g. in Davos or Tiefencastel).

Prohibited stopping and parking

- Stopping on public roads, at bus stops or in car parks for cars is not permitted.
- Violations may be penalised by the police.

3. Official stopping places in Filisur

The stopping places are exclusively for passengers to board and alight. Prolonged waiting or blocking is not permitted.

Main stopping place: Filisur railway station

- Boarding and alighting permitted
- No waiting or parking directly at the stop
- Walk to the village centre: approx. 5 minutes
- Access only with valid stopping authorisation

Alternative temporary stopping point (Hotel Schöntal under negotiation)

- If necessary, an additional stopping zone will be trialled for one summer season.
- The situation will be reassessed after the pilot project.

Turning possibilities for coaches

- There is a turning area at Bahnhofstrasse 1 or possibly at an alternative location (to be checked).

4. Overview of parking spaces for coaches

After alighting, coaches must leave the stopping zones immediately and drive to one of the designated car parks.

Filisur coach park – unlimited parking time

Alternative car parks in the region

- Davos or Tiefencastel with long-term car parks for coaches
- Transfer for guests is by RhB

5. Traffic rules for coaches in Filisur

- Coaches may only travel on the defined access roads.
- Driving ban on Bahnhofstrasse for unauthorised coaches.
- The maximum permitted number of coaches per hour is limited.
- The instructions of the traffic service must be followed.

6. Contact & further information

If you have any questions or would like to book a stopping authorisation, please contact:
