Brenners Spa & Wellbeing

SUMMARY

Brenners Park-Hotel & Spa

Tucked between the poetic calm of the Lichtentaler Allee and the wild beauty of the Black Forest, Brenners Park-Hotel & Spa is more than a hotel—it's a legacy. For over 150 years, this grande dame of European hospitality has welcomed generations of travellers in search of elegance, wellbeing, and a true sense of place. Today, following a landmark renovation, Brenners reemerges with renewed spirit: its iconic charm intact, its interiors reimagined for a new era of joyful, considered travel.

At the heart of the experience is the Brenners Spa & Wellbeing and Brenners Medical Care centre—world-renowned for its fusion of advanced diagnostics and holistic rituals, where guests are never patients, but individuals on a path to lasting vitality. Here, beauty is balanced with purpose: forest bathing at dawn, candlelit sound baths by night, and personalised wellness programmes delivered with warmth, discretion, and German precision.

Beyond its private parkland and gracious salons, Brenners opens into a world of culture and nature. From opera at the Festspielhaus to vineyard picnics, vintage car tours and dinners at Fritz & Felix, the hotel is a vibrant gateway to the best of the region—and an experience entirely its own. Whether for celebration, restoration, or quiet escape, Brenners is a place where time unfurls gently, and every stay becomes a story worth returning to.

Brenners Medical Care

At Brenners Medical Care, world-class health expertise is delivered in the most unexpected setting: the comfort and discretion of a legendary grand hotel. Led by renowned German physicians and specialists, the medical wing offers precision diagnostics and bespoke programmes in areas such as preventative health, recovery, rejuvenation, dentistry, and lifestyle medicine. Every treatment is deeply personalised, designed not only to address specific concerns but to support long-term vitality—whether guests are here for a focused medical consultation or a full wellness reset.

But what truly sets Brenners apart is its atmosphere: restorative, private, and effortlessly elegant. There are no waiting rooms or white coats beyond the clinic—only garden views, silver tea trays, and the quiet assurance that you are being cared for, not just clinically, but holistically. At Brenners, health isn't separated from the hospitality experience—it's elevated by it. Guests emerge not just improved, but transformed, in body, mind, and spirit.

Dr. König & Colleagues

At Brenners Medical Care, our approach is designed to stabilise, strengthen, and optimise your personal health profile. Every programme begins with a comprehensive diagnostic process, forming the foundation for a tailored, integrative plan that supports long-term wellbeing.

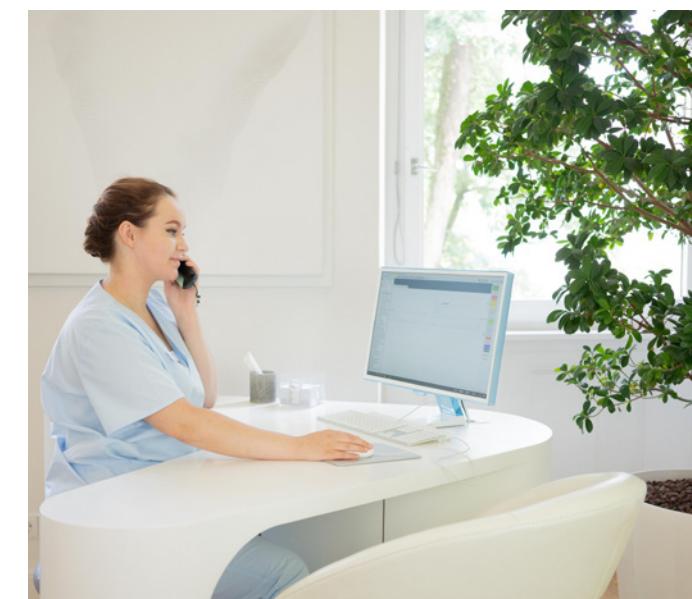

Based on your individual results, we will make personalised nutritional adjustments and develop a targeted exercise plan to support your unique physiology and lifestyle.

To complement this, we may incorporate vital nutrients, homeopathic treatments, and phytotherapy—providing a holistic framework that encourages your body's natural ability to restore and thrive.

Our goal is simple: to help you achieve the very best version of your health—refined, rebalanced, and fully individualised. You can look forward to care that is precise, personal, and delivered to the highest standard.

Detox & Weight Loss

7 DAYS

Benefit For Body and Soul

To support optimal health, this programme integrates deep cleansing with sustainable weight reduction. The detox process gently eliminates harmful substances while relieving key detoxification organs, such as the liver. Alongside this, you'll explore nourishing, flavourful ways of eating—developing healthy habits that not only enhance your body's natural cleansing mechanisms but also promote long-term, balanced weight loss.

Included Services:

- A curated welcome gift placed in your room upon arrival
- Personalised vitality cuisine (lactose- and gluten-free), with vegetarian or vegan options, including water and herbal teas
- Comprehensive medical history and clinical examination at the start of your stay, followed by a final consultation
- 1 Bioimpedance Analysis (BIA) to assess hydration, fat composition, and muscle mass
- Full laboratory screening with a personalised review of results
- 1 Body composition retest for progress tracking
- 2 Hypoxic training sessions (altitude therapy) to enhance cellular performance and boost energy production
- 2 Medical Movement Training sessions, 2 Physio Plus sessions, 2 LymphBalance sessions, 1 Postural Therapy session, 1 Mobility Five session, 1 Gait Analysis, 1 Reflexology Foot Therapy session, 1 Cranio Sacral Balance session
- Creation of a Home Exercise Plan
- 1 Brenners individual facial treatment
- 1 Brenners Time-out for Body and Mind treatment, 2 Detox firming body treatments, 1 Mineral Wellness Cure
- 2 Personal training sessions tailored to your fitness goals
- Full access to Brenners Spa & Wellbeing: Roman-style pool, fitness centre, 500 m² sauna area, plunge pool, and dedicated Ladies Spa

Price: € 8,035 per person

*Please note: accommodation is not included.
A minimum stay of 7 nights is required. Arrivals are on Sundays, with the programme commencing the following day. Prices may vary depending on the service provided.*

We reserve the right to make changes to the Packages at any time.

- 3 Medical Movement Training sessions, 2 Sonostim Therapy sessions, 2 LymphBalance sessions, 2 Thermal Shift sessions, 2 Connective Balance sessions,
- 1 JetPeel meets Feather Touch Treatment
- 1 Brenners full body massage
- Follow-up consultation to review progress and adjust the treatment plan if needed

The following procedures are used :

- Chelation Therapy & Diagnostics: Using targeted infusions, heavy metals and environmental toxins are bound and safely eliminated from the body—guided by a personalised diagnostic assessment of each individual's toxic load and stress profile
- Plasmapheresis and Haematapheresis (performed individually or in combination, depending on clinical indication): These advanced blood purification therapies allow for the targeted removal of disease-triggering substances from the plasma or blood cells—relieving the immune system and supporting the treatment of chronic stress

Price: € 24,720 per person

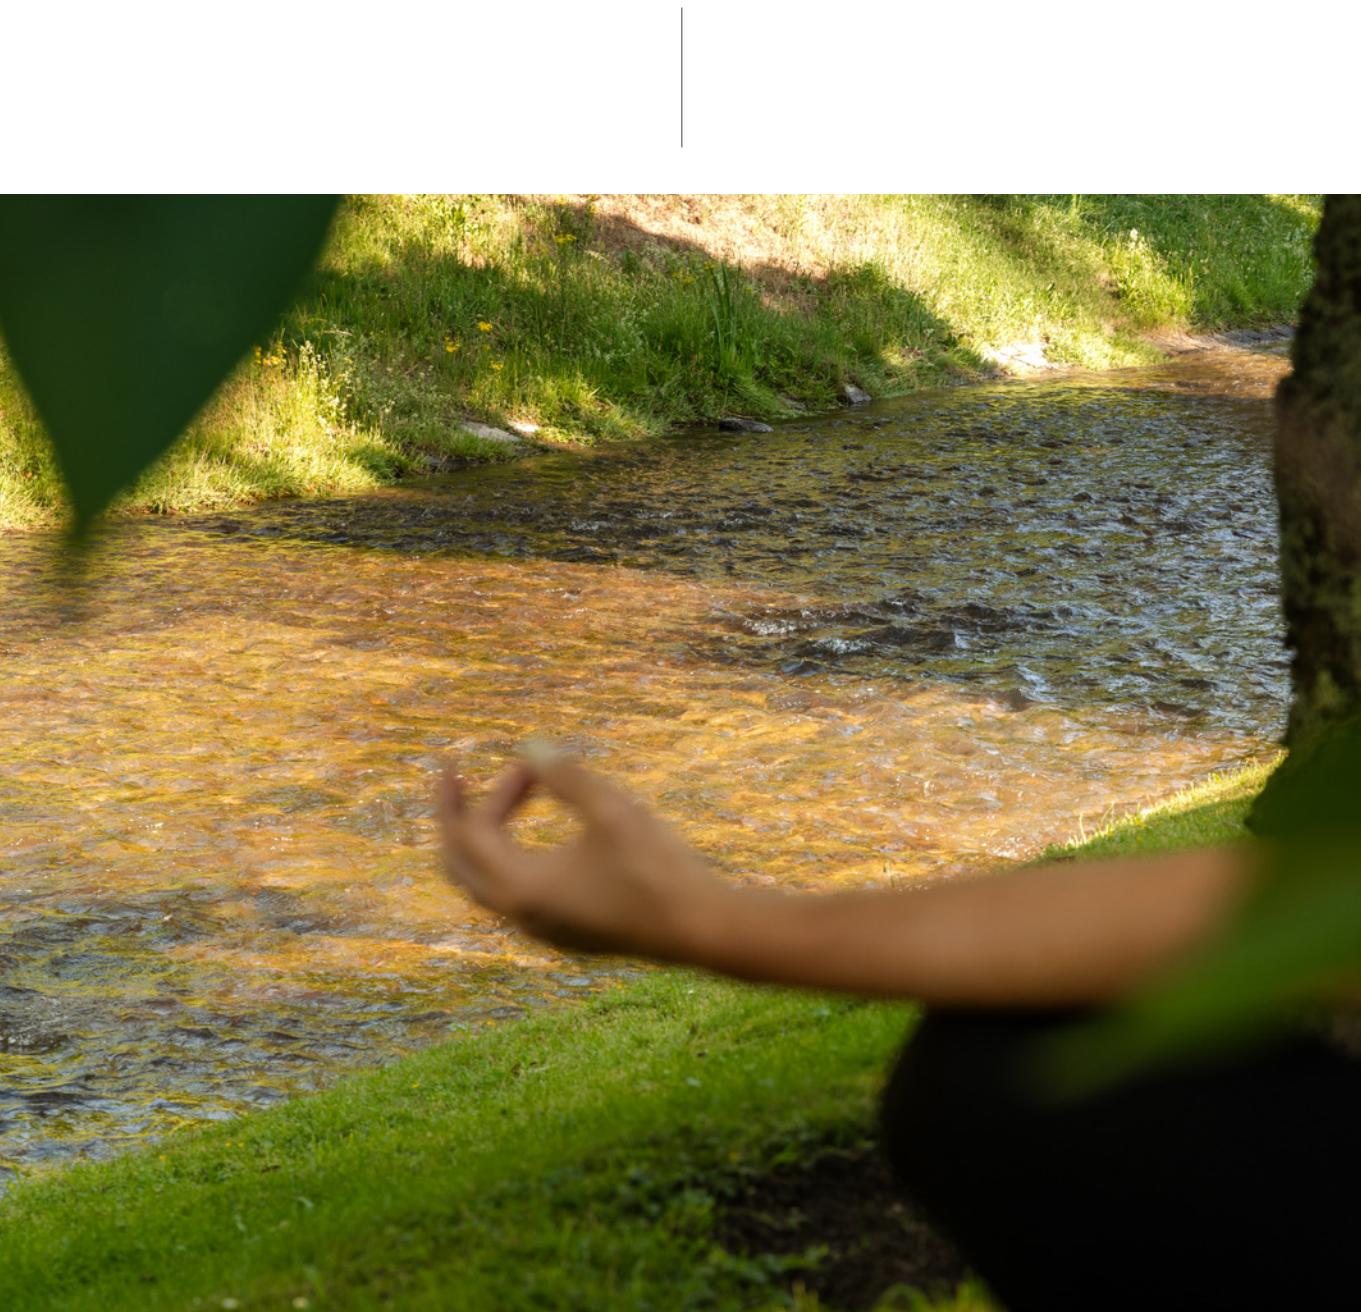

Please note: accommodation is not included. A minimum stay of 5 nights is required. Arrivals are on Sundays, with the programme commencing the following day. Prices may vary depending on the service provided.

We reserve the right to make changes to the Packages at any time.

The ReLIFE Longevity Protocol by Dr. König

10 DAYS

The ReLIFE Longevity Protocol is a medically validated, precision-based programme designed for total biological renewal. It uniquely integrates deep detoxification, immune system modulation, and cellular regeneration—delivered in three meticulously coordinated phases.

1. Deep Detox:

The programme begins with medically supervised chelation therapy—targeting the elimination of heavy metals, environmental toxins, and cellular-level interference fields to create a foundation for renewal.

3. Biocellular Renewal:

The regenerative phase employs cutting-edge autologous pluripotent stem cells, following the protocol developed by Prof. Alt, to reactivate cellular function, stimulate the body's intrinsic repair mechanisms, and deliver a sustained boost in overall vitality.

2. Immune Reset:

This is followed by a personalised plasma treatment, supported by targeted haematopoietic therapy—designed to eliminate autoimmune complexes, oxidised lipids, protein-bound toxins, and excess cholesterol, resulting in a deep reset of the internal biochemical environment.

Further services included in the package:

- Medical History: A detailed consultation upon arrival to review any health concerns and establish personal wellbeing goals
- Clinical Examination: A comprehensive physical assessment to evaluate your general health status
- Laboratory Analysis: Extensive diagnostic testing, including blood count, organ function, metabolic markers, vital substances, hormone levels, urinalysis, immunological stool analysis, and tumour markers (optional: epigenetic testing for advanced preventative insight)
- Ultrasound Diagnostics: Imaging of the abdomen, thyroid, arteries, and veins for a clear internal health profile
- Cardiac Assessment: Includes exercise ECG and cardiac ultrasound to monitor cardiovascular health
- 4 Medical Movement Training sessions, 6 Sonostim Therapy sessions, 4 Lymph Balance sessions, 4 Thermal Shift sessions, 4 Connective Balance sessions, 4 Fascia Release sessions
- 1 Balancing Wellness Treatments
- 1 Brenners time out for body and mind treatment
- 1 JetPeel Face & Neck
- 1 Brenners Wellnesreise by Augustinus Bader
- 1 Mineral Wellness Kur
- 1 Brenners individual Facial
- 1 Recovery Massage
- 1 Brenners full body massage
- Final Consultation: A personalised closing session to review findings and present tailored health recommendations in full detail

Modularity:

Individual program items can be booked separately (ideal for returning guests or specific therapy goals)

Price starting from: € 44,660 per person

Please note: accommodation is not included. A minimum stay of 5 nights is required. Arrivals are on Sundays, with the programme commencing the following day. Prices may vary depending on the service provided.

We reserve the right to make changes to the Packages at any time.

Private practice Dr. med. Yusuf Yildirim

Aesthetic Medicine

With over two decades of experience, YY Aesthetics offers you the entire spectrum of individual, timeless beauty - characterized by medical expertise, subtle aesthetics and a deep understanding of the essentials.

To preserve and gently enhance natural beauty, Dr. Yildirim uses a variety of innovative procedures in addition to botulinum toxin and hyaluronic acid.

Endolift laser technology and biostimulants such as polylactic acid, polynucleotides and calcium hydroxyapatite stimulate the body's own collagen production and ensure long-term skin rejuvenation. Mesotherapy, radio frequency microneedling, IPL, Erbium, ResurFX and CO2 lasers as well as ultrasound are used in a targeted manner to visibly refine the skin structure, boost elasticity and maintain the skin's natural glow for the long term. Treat yourself to a time-out, that gets under your skin - individual, effective and extraordinary.

DR. MED. YUSUF YILDIRIM
Private practice for aesthetic medicine

Consulting

Trust begins with transparency. At YY Aesthetics, we take time for you: We discuss all non-surgical treatment options in detail, define your personal goal together and provide you with comprehensive information about possible risks and the right aftercare. For results that are not only visible, but also tangibly harmonious.

Price: 150 €

Duration: approx. 30 minutes

Face Sculpting

Targeted harmonization of individual facial areas: Eyebrows, eye area, nose, lips, cheeks, jawline, chin, mouth area or forehead - selected areas are precisely treated with botulinum toxin and hyaluronic acid as desired to gently balance asymmetries, build volume and refine proportions. Natural facial expressions are retained - for a fresh, expressive and harmoniously balanced look.

Price: Botulinum toxin from 400 €

Hyaluronic acid from 950 €

Duration: approx. 30 minutes

Skin Rejuvenation

Effective, non-invasive procedures for skin renewal - targeted, precise and individually tailored. Erbium, ResurFX and CO2 lasers visibly refine the skin structure, while IPL and HIFU firm and smooth the depth of the skin. Ultrasound stimulates micro-circulation and provides new elasticity. In addition, skin-boosting treatments such as mesobotox, mesohyaluron and PRP revitalize the skin's appearance in the long term - for fresh radiance, even texture and natural luminosity.

Price: from 450 €

Duration: approx. 30 minutes

Mid-face Lifting

Non-invasive revitalization of the mid-face - without surgery. Endolift® lasers and bio stimulants such as polylactic acid, calcium hydroxyapatite and salmon DNA work synergistically in all layers of tissue. The result: tightened contours, improved skin structure and natural freshness.

Price: from 1400 €

Duration: approx. 30-90 minutes

Fullface

The signature concept from YY Aesthetics - for those who demand the highest standards of naturalness, precision and effect. With an individually tailored treatment plan, YY FullFace combines state-of-the-art methods for holistic, non-invasive facial rejuvenation. Botulinum toxin, hyaluronic acid, biostimulants such as polylactic acid, calcium hydroxyapatite or polynucleotides, Endolift® laser, HIFU, RF microneedling and skin boosting are used specifically to gently lift the face and neck, define contours and compensate for volume loss. The procedures work synergistically in all tissue layers - for a visibly firmer, harmoniously balanced overall appearance with long-lasting freshness, without surgery or downtime.

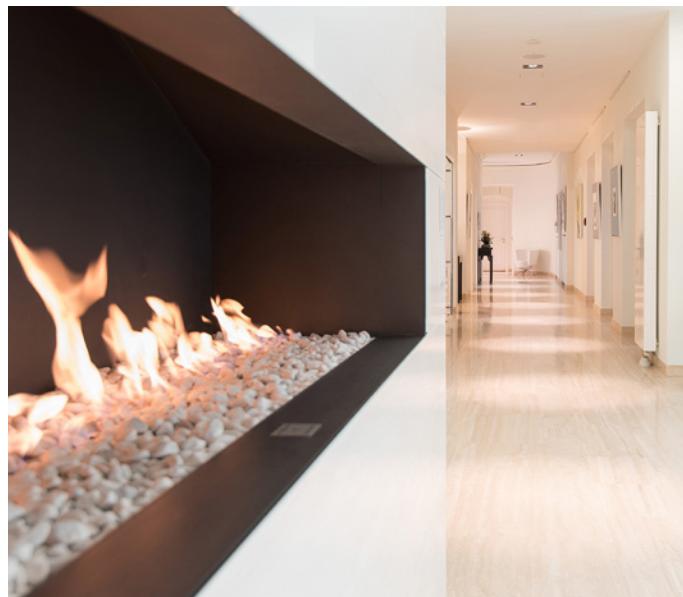

Price: from 8000 €

Duration: approx. 60-120 minutes

Lips

YY Aesthetics stands for natural beauty. YY Lips are based on the highly specialized YY technique, which Dr. Yildirim has developed and perfected in his many years of experience on 20,000 lips. They are the trademark of YY Aesthetics and a symbol of beautiful, harmonious and lasting results. In addition to lip augmentation, lip enhancement, lip rejuvenation and contouring of the lip, our high-end treatments include lifting the corners of the mouth and recontouring the cupid's bow or the philtrum. In a personal consultation, we analyze the initial situation and coordinate your personal desire for lip injections with regard to your individual anatomy.

Price: 1100 € / Duration: approx. 30-45 minutes

Highly Modern Facilities in exclusive surroundings

Patients from all over the world place themselves in the competent hands of Dr. S. Marcus Beschnidt and value his expertise in the field of dentistry. Since 2010, Beschnidt is one of Germany's top physicians (source: Focus news magazine) and was most recently honoured as one of the "Worlds Top 100 Doctors" (source: Global Summit).

Dr. Beschnidt holds multiple academic teaching positions and remains actively engaged in research and innovation. His practice is a world apart from the traditional dental environment—spacious, serene, and infused with the calming essence of wellness. Accompanied by soothing music of your choice, you're invited to fully relax and feel at ease ahead of your treatment.

Did you know that you do high-performance sport every day?

Your teeth do. Each one is a miracle of strength and endurance. A hard worker. But a hard life leaves its mark. And these should be removed quickly. Because only healthy teeth can perform at their best. Think of us as your personal dental health coach. In our practice, we offer the complete program of dentistry. From prophylaxis, the fitness program for your teeth, to the interdisciplinary overall treatment of your masticatory system, to complex prosthetic reconstructions with high quality implants.

Baden Smile

4 DAYS

Healthy starts in the mouth. Numerous studies have shown that complaints such as periodontal disease have a negative impact on the entire body. Our comprehensive examination is an important part of proactive health management, as the origin of unexplained general medical diagnoses often lies in the jaw area. Oral health has a significant influence on performance, stamina and the ability to concentrate and has also been proven to help prevent corona infection. As part of a scientifically based overall check-up, your oral health is checked, taking aesthetic and functional aspects into account - so that you shine like the sun over Baden-Baden.

Included Services:

- Welcome gift in your room.
- Detailed medical history (including evaluation of all previous and external findings)
- Complete clinical examination of the entire jaw area inside and outside (teeth, mucous membranes, jaw, lips, lymph nodes, nerve exit points, etc.)
- Complete measurement of the periodontium (gum pockets, tooth loosening, gum recession, gum inflammation - periodontitis risk assessment)
- Functional diagnostics of the temporomandibular joints and bite in statics and dynamics
- X-ray diagnostics (provided no previous images less than nine months old are available) - optional cone beam CT (can be booked additionally)
- AI-supported diagnostics (posture scan and X-ray diagnostics)
- Vitamin D analysis to optimize bone mineral density and healing
- Omega-3 index for assessing soft tissue healing and the risk of inflammation
- Model production individually mounted in the bite simulator
- Professional teeth cleaning including consultation
- Nutrition and care (oil pulling, gum hygiene, tongue hygiene, etc.)
- Advice on tooth whitening options (bleaching, veneers, etc.)
- Detailed final consultation including handover of all findings and diagnoses
- Access to the Brenners Spa & Wellbeing with fitness center, Roman-style swimming pool, 500-square-meter sauna, plunge pool and Ladies spa

Price: 1.300 € per person

Overnight stay not included, minimum stay: 4 nights.

We reserve the right to make changes to the Packages at any time.

Dental Relax

3 DAYS

Grinding, rubbing, clenching? Stressful situations at work or at home are causing more and more people to grind their teeth. Dysfunction of the temporomandibular joint, teeth and muscles results in excessive wear and tear and damage to the dental hard tissue and periodontium, including possible joint damage. The TMJ check-up and subsequent treatment are aimed at protecting the teeth and reducing bruxism activity. In a confidential exchange with you, we will look for the individual causes in order to treat the disease, which can also include sleep disorders, concentration problems and taste impairments, in the long term.

Included Services:

- Welcome gift in your room
- Detailed anamnesis (including evaluation of all previous and external findings and any existing sleep analyses, assessment of existing occlusal splints and medication)
- Complete clinical examination of the entire jaw area inside and outside (teeth, mucous membranes, jaw, lips, lymph nodes, nerve exit points, etc.).
- Periodontal screening index (scan of the gum situation)
- Detailed functional diagnostics of the temporomandibular joints and bite in statics and dynamics including temporomandibular joints, masticatory muscles, jaw mobility and measurement of boundary movements
- AI-supported diagnostics
- If required: Pain questionnaire from the German Society for the Study of atypical facial pain
- X-ray diagnostics (provided no previous images less than nine months old are available)
 - optional cone beam CT (can be booked additionally)
- Optional: Model production individually mounted in the bite simulator (bookable)
- Photo documentation of the bite position/teeth
- Detailed final consultation including handing out of all findings and diagnoses
- Specific therapy suggestions on request
- Access to the Brenners Spa & Wellbeing with fitness center, Roman-style swimming pool, 500-square-meter sauna, plunge pool and Ladies spa

Price: 650 € per person

Overnight stay not included, minimum stay: 3 nights.

We reserve the right to make changes to the Packages at any time.

Winners Bite

3 DAYS

Whether you are an amateur or professional athlete: nuances make the difference between winning and losing. Sports dentistry makes a significant contribution to exploiting human potential so that you can start the new season perfectly or get back into training optimally after recovering from a sports injury. Your sports dentist will search for performance-reducing disruptive factors such as hidden inflammation or an incorrect bite. The focus here is on gentle non- or minimally invasive and holistic concepts. Boost your performance with a top-class performance check.

Included Services:

- Welcome gift in your room
- Detailed anamnesis, also with your trainer (including evaluation of all previous and external findings)
- Complete clinical examination of the entire jaw area inside and outside (teeth, mucous membranes, jaw, lips, lymph nodes, nerve exit points, etc.)
- Periodontal screening index (scan of the gum situation)
- Detailed functional diagnostics of the temporomandibular joints and bite in statics and dynamics including temporomandibular joints, masticatory muscles, jaw mobility and measurement of boundary movements
- X-ray diagnostics (provided no previous images less than nine months old are available)
 - optional Cone-Beam CT incl. AI-supported analysis (can be booked additionally)
- Treadmill video analysis with a sports coach
- Postural cybernetic analysis with a physiotherapist incl. AI-supported diagnostics
- Vitamin D analysis to optimize bone mineral density and healing
- Omega-3 index for assessing soft tissue healing and the risk of inflammation
- Advice on interference fields, performance enhancement and training optimization (bite splint versions and sports protection). Detailed final consultation including handover of all findings and diagnoses
- Access to the Brenners Spa & Wellbeing with fitness center, Roman-style swimming pool, 500-square-meter sauna, plunge pool and Ladies spa

Price: 870 € per person

Overnight stay not included, minimum stay: 3 nights.

We reserve the right to make changes to the Packages at any time.

Physiotherapy and Medical Fitness

With a strong team of experienced therapists, we support you with a holistic concept of physiotherapy and medical fitness. We do not work in a standardized way, but develop tailor-made treatments for you that will permanently improve your mental and physical well-being. As part of a strong group practice, we also benefit from our strong partners from Brenners Medical Care, who are on hand to provide specialist medical advice if required.

Everything for your health

- Physical findings
- Physio Plus - Holistic physiotherapy
- Joint Harmony - Manual Therapy
- Medical Movement Training - Strength & Control
- Four Hands, One Focus - Dual Physio Session
- Osteocosms
- Intermittent Hypoxic Training - IHT
- Multimodal treatment for chronic fatigue syndrome (burnout)
- Deep Tissue Regulation - Fascia & Flow

Treatments

Physio Plus - Holistic Physiotherapy

This advanced physiotherapy considers the body as an interconnected system. The treatment involves posture, movement, breathing and the nervous system in equal measure - for lasting improvement of chronic complaints, functional disorders and tension patterns.

Price: 190 € / Duration: 50 minutes

Manual Therapy - Structure in Motion

Targeted manual grips help to release blockages, mobilise joints and regulate muscular tension. The treatment supports natural freedom of movement and often provides immediate relief.

Price: 200 € / Duration: 50 minutes

LymphBalance - Relief & Immune Support through Manual Lymphatic Drainage

A particularly gentle manual technique to promote lymph flow, relieve swelling and strengthen the body's own cleansing process. This treatment decelerates, purifies and revitalizes the immune system.

Price: 200 € / Duration: 50 minutes

Sound Silence - Therapy for Tinnitus

This specialized therapy works on muscular and nervous tension in the jaw and neck area, which can exacerbate tinnitus. It promotes relief for the system and brings the body and hearing back into balance.

Price: 190 € / Duration: 50 minutes

Fascia Release - Inner Flow

This deeply effective treatment releases tension in the connective tissue, promotes mobility and improves posture. Targeted grips release adhesions and reactivate the fascia network - for a new feeling of inner freedom.

Price: 190 € / Duration: 50 minutes

Medical Movement Training - Strength & Control

This personalised training is supervised by a physiotherapist and is geared towards medical objectives - from back health to joint stability. It combines precise movement, muscle building and functional exercises for a safe, sustainable improvement in your physical performance.

Price: 170 € / Duration: 50 minutes

Scar Regulation - Tissue in Balance

This specialised manual technique treats adhered or hardened scar tissue, promotes blood circulation and restores elasticity. It supports both the function and the aesthetic appearance of the skin after operations or injuries.

Price: 190 € / Duration: 50 minutes

Jaw Structure Therapy for Tension & Pain

This manual therapy helps with temporomandibular joint problems (TMJ), which are often accompanied by teeth grinding, tension headaches or ringing in the ears. The aim is to restore jaw balance and relieve the surrounding muscles.

Price: 190 € / Duration: 50 minutes

Treatments

Foot Reflexology Therapy - Impulses for the Whole Body

Internal organs, circulation and the nervous system are influenced by targeted stimulation of reflex zones on the feet. This method activates self-healing powers, promotes the regulation of the autonomic nervous system and ensures deep relaxation.

Price: 200 € / Duration: 50 minutes

Deep Solution for Abdominal Organs & Fasciae

This treatment focuses on the deep tissue in the abdomen - from muscles to fascia and organs. It improves the mobility of internal structures, has a relaxing effect on the nervous system and supports digestive function.

Price: 200 € / Duration: 50 minutes

Breathing in Balance - Function & Energy

Targeted breathing training to improve lung function, body awareness and stress regulation. The treatment supports patients with respiratory diseases as well as people with muscular tension patterns or chronic stress.

Price: 190 € / Duration: 50 minutes

Therapy Duo - Double Therapy for More Depth Effect

Two therapists work in close coordination at the same time - for a more intensive effect on complex complaints or for deep regeneration. This method increases the depth of treatment and reduces therapy time.

Price: 450 € / Duration: 50 minutes

CranioSacral Balance – Regulation from Within

This gentle manual therapy harmonises the rhythmic connection between the skull, spine and sacrum. It has an effect on the central nervous system, supports deep regulation and can help with stress, headaches, sleep disorders and vegetative imbalances.

Price: 190 € / Duration: 50 minutes

Postural Therapy - Straightening & Body Awareness

Targeted analysis and correction of posture patterns to relieve joints, muscles and the nervous system. The treatment trains body awareness, strengthens the postural muscles and improves your upright presence in everyday life.

Price: 200 € / Duration: 50 minutes

Gait Diagnostics - Understanding Movement Patterns

This functional analysis of your gait pattern reveals individual movement patterns, incorrect loading and muscular imbalances. It forms the basis for targeted physiotherapy measures to improve posture, relieve pain and prevent illness.

Price: 200 € / Duration: 50 minutes

Mobility Five - Focus on Mobility

Targeted mobilisation training on the medical FIVE circuit to improve flexibility, posture and joint mobility. Ideal for back problems, restricted movement and for holistic body alignment.

Price: 170 € / Duration: 50 minutes

Treatments

Home Training Plan - Your exercise. Your time.

Customized training plan with targeted exercises for at home - tailored to your complaints, goals and everyday life. Ideal for intensifying the therapeutic effects and for long-term stabilization of posture and mobility.

Price: 170 € / all-inclusive

SonoStim Therapy - Cell Activation through Impulse & Sound

This device-based therapy combines high-frequency impulses or gentle ultrasound for targeted pain relief, anti-inflammation and tissue regeneration. Particularly suitable for tension, tendon irritation or to support healing after injuries.

Price: 80 € / Duration: 25 minutes

Connective Balance - Fascia & Tissue in Regulation

This profound manual technique has a direct effect on the connective tissue and the autonomic nervous system. Adhesions and tension patterns are released - blood circulation is improved, the organs are reflexively supported and the body system is brought into balance.

Price: 190 € / Duration: 50 minutes

Pilates Reformer Training

Pilates reformer training specifically promotes deep muscles, posture and flexibility. Customised equipment exercises help to develop a new body awareness, stability in the torso and balanced muscle tone - effectively and gently on the joints.

Price: 170 € / Duration: 50 minutes

Medical Pilates Reformer Training

Medical Reformer Training is a precisely guided movement therapy on the Reformer device with a medical focus. It strengthens the deep core muscles, improves postural stability and optimises neuromuscular control - particularly effective after orthopaedic complaints, for back pain, functional limitations or for prevention. The controlled resistance of the device enables individual exercise customisation with maximum joint protection.

Price: 190 € / Duration: 50 minutes

Cupping Flow - Cupping Therapy for Relief & Activation

Cupping therapy is a traditional healing method with a modern application. Targeted negative pressure promotes blood circulation, relieves muscular tension and stimulates the metabolism. Particularly effective for tension, chronic pain or to support detoxification.

Price: 80 € / Duration: 25 minutes

MedTape - Functional Support through Kinesiological Taping

Medical kinesiotaping offers functional support for muscular complaints, joint problems or lymph congestion. The elastic tapes create targeted stimuli on the skin, fascia and deep receptors - for relief, stabilisation or activation. Ideal for exercise therapy or aftercare.

Price: 40 € / Duration: 10-15 minutes

Metabolic Balance

7 DAYS

The engine of our body is the metabolism. It supplies all functions with energy. Inactivity, crash diets, illnesses, operations and injuries often slow down our metabolism in the long term. Our vitality decreases and the body ages faster than the actual years of life. A special medicaltherapeutic programme supports the revitalisation of the metabolism through a holistic approach.

Included Services:

- Welcome gift in your room
- Vitality cuisine (lactose- and gluten-free) with a personalised menu plan – vegetarian or vegan options available, including water and herbal teas
- Initial medical consultation
- Comprehensive body analysis with physical evaluation
- Customised menu planning session
- Full laboratory testing and personalised results consultation
- 2 Classic massages for relaxation and muscle recovery
- 3 Medical movement Training sessions
- 5 Physio Plus sessions
- 4 LymphBalance treatments to support detoxification and circulation
- 1 Postural Therapy session, 1 Mobility Five session, 1 Gait Analysis, 2 Reflexology Foot Therapy session, 1 Postural Therapy session, 1 Mobility Five session, 1 Gait Analysis with functional assessment, 2 Connective Balance sessions, 1 Four Hands, One Focus sessions, 2 Fascia Release sessions, 1 CranoSacral Balance session
- Creation of a Home Exercise Plan
- 2 Intensive tissue treatments to release deep muscular tension
- 4 Hypoxic training sessions (altitude therapy) to enhance cellular regeneration and boost energy production
- 1 Body composition retest to assess results at the conclusion of the programme
- Full access to Brenners Spa & Wellbeing: Roman-style pool, fitness centre, 500 m² sauna area, plunge pool, and dedicated Ladies Spa
- Comprehensive medical history and clinical examination at the beginning of your stay, followed by a final consultation to evaluate results and next steps
- 1 Bioimpedance Analysis (BIA) to assess hydration, fat composition, and muscle mass
- Full laboratory screening with a personalised review of results
- 1 Body composition retest for progress tracking
- 2 Hypoxic training sessions (altitude therapy) to optimise oxygen utilisation and performance
- 1 Clay Body Treatment, 2 Classic Massages, 1 Detoxifying Algae Treatment, 2 Personal Training
- Creation of the Meal Plan
- Diet Full Board incl. Water & Tea

Price: € 13.983 per person

Overnight stay not included, minimum stay: 7 nights.

Departure always on Mondays (arrival on Sundays) / on request and subject to availability.

We reserve the right to make changes to the Packages at any time.

Revive Package

14 DAYS

To this day, burnout is not a term for a medical illness. We address the complex symptoms from the perspective of a psychological and physical reaction to various deficiency symptoms, intolerances and stress situations. The programme can be completed on its own, as a supplement or afterwards, as well as to compensate for waiting times until the start of any necessary accompanying psychotherapy.

Included Services:

- Welcome gift upon arrival
- Vitality cuisine (lactose- and gluten-free) with a personalised menu plan – vegetarian or vegan options available, including water and herbal teas
- Initial consultation and full-body composition analysis
- Review of physical findings, plus comprehensive laboratory diagnostics and personalised discussion of results
- 9 Medical Movement Training sessions, plus 9 Physio Plus sessions
- 4 LymphBalance sessions, 2 Cranio Sacral Balance sessions, 2 Connective Balance sessions, 1 Gait Analysis, 2 Postural Therapy sessions, 2 Four Hands, One Focus sessions, 2 Abdominal Deep Tissue Therapy sessions, 3 Foot reflexology sessions, 3 Fascia release sessions, 2 Jaw Joint Therapy sessions
- Creation of a Home Workout Plan
- 7 Hypoxic training sessions (altitude therapy) to activate cellular performance and enhance energy production
- 2 Augustinus Bader Full Body Treatments for deep skin renewal and hydration
- 3 Guided hiking or biking tours through the scenic landscapes of the Black Forest and 2 Yoga sessions for movement and balance
- 1 Facial reflexology massage and 2 Detoxifying clay body treatments
- 2 Body analysis retests to evaluate progress and final outcomes
- 2 Brenners Wellness Journey Treatments by Augustinus Bader
- 1 Detoxifying Algae Treatment
- Full access to Brenners Spa & Wellbeing: Roman-style pool, fitness centre, 500 m² sauna area, plunge pool, and dedicated Ladies' Spa

Price: from € 19,680 per person

Overnight stay not included, minimum stay: 14 nights.

Start of the package on Mondays (arrival on Sundays)

or Wednesdays (arrival on Tuesdays).

On request and subject to availability

We reserve the right to make changes to the Packages at any time.

Orthopaedics Package

7 DAYS

Movement is life. Our body is the guarantor of our mobility. Quality of life is considerably reduced when the musculoskeletal system no longer functions as it should. Spinal and joint pain reduces performance and mobility. The causes of your pain and what you can do about it will be treated individually in this orthopaedic package by our experienced specialist in orthopaedics. In order to create a tailor-made therapy and exercise programme for you, your spine, the entire musculoskeletal system and your training status are analyzed and usually supplemented by physiotherapy.

Included Services:

- Welcome gift in your room
- Vitality cuisine (lactose- and gluten-free) with a personalised menu plan – vegetarian or vegan options available, including water and herbal teas
- Comprehensive medical history and clinical examination at the beginning of your stay, followed by a final consultation
- 1x bioimpedance analysis (BIA) to assess fluid balance, fat composition and muscle mass
- A repeat body composition analysis to monitor progress
- Comprehensive laboratory examination including orthopaedic parameters with personal discussion of the results
- Customised menu planning session
- Orthopaedic examination including assessment of spinal alignment, followed by a final orthopaedic consultation
- 2 Classic massages and 1 full-body massage
- 5 Medical Movement Training sessions
- 5 Physio Plus sessions
- 2 Fascial Release sessions, 2 LymphBalance sessions, 1 Postural Therapy session, 1 Gait Analysis, 1 Reflexology Foot Therapy session, 1 Cranio Sacral Balance session, 3 Sonostim Therapy session, 2 Mobility Five sessions
- Creation of a Home Exercise Plan
- 2 Hypoxic training sessions (altitude therapy) to enhance cellular regeneration and energy production
- 4 Pneumatron treatments to stimulate circulation and support muscular recovery
- 2 Comprehensive chirotherapy sessions for spinal alignment and joint mobility
- 1 Final body composition retest and orthopaedic consultation to assess programme outcomes
- 1 Full Body Massage
- 1 Detoxifying Algae Treatment
- Full access to Brenners Spa & Wellbeing: Roman-style pool, fitness centre, 500 m² sauna area, plunge pool, and dedicated Ladies' Spa.

Price: from € 14,251 per person

Overnight stay not included, minimum stay: 7 nights.

Start of the package possible on Mondays (arrival on Sundays) or Wednesdays (arrival on Tuesdays) on request and subject to availability.

We reserve the right to make changes to the Packages at any time.

Spa & Wellbeing

Brenners Spa & Wellbeing is more than a spa—it's a sanctuary where science and serenity meet. Set within the hotel's lush private parkland, the spa offers an immersive journey into physical and emotional restoration. From advanced facials using Augustinus Bader, to holistic therapies rooted in centuries-old traditions, each treatment is delivered with expert care and intuitive precision. The atmosphere is quietly luxurious, with dimly lit saunas, marble-clad steam rooms, and a tranquil indoor pool overlooking the trees—all designed to slow time and deepen breath.

But wellbeing at Brenners goes far beyond treatment rooms. Guests are invited to engage with nature through forest bathing, breathwork, or morning hikes in the Black Forest, all curated by a discreet and knowledgeable team. It's a place where balance is not a goal, but a rhythm—woven into every touchpoint of the experience. Whether seeking a moment of stillness or a full-body reset, Brenners Spa & Wellbeing offers a rare kind of indulgence: the kind that truly restores.
